TRAILER DIAGRAM & OPTIONS

Steel Cage: Durable cage holds the water tank.

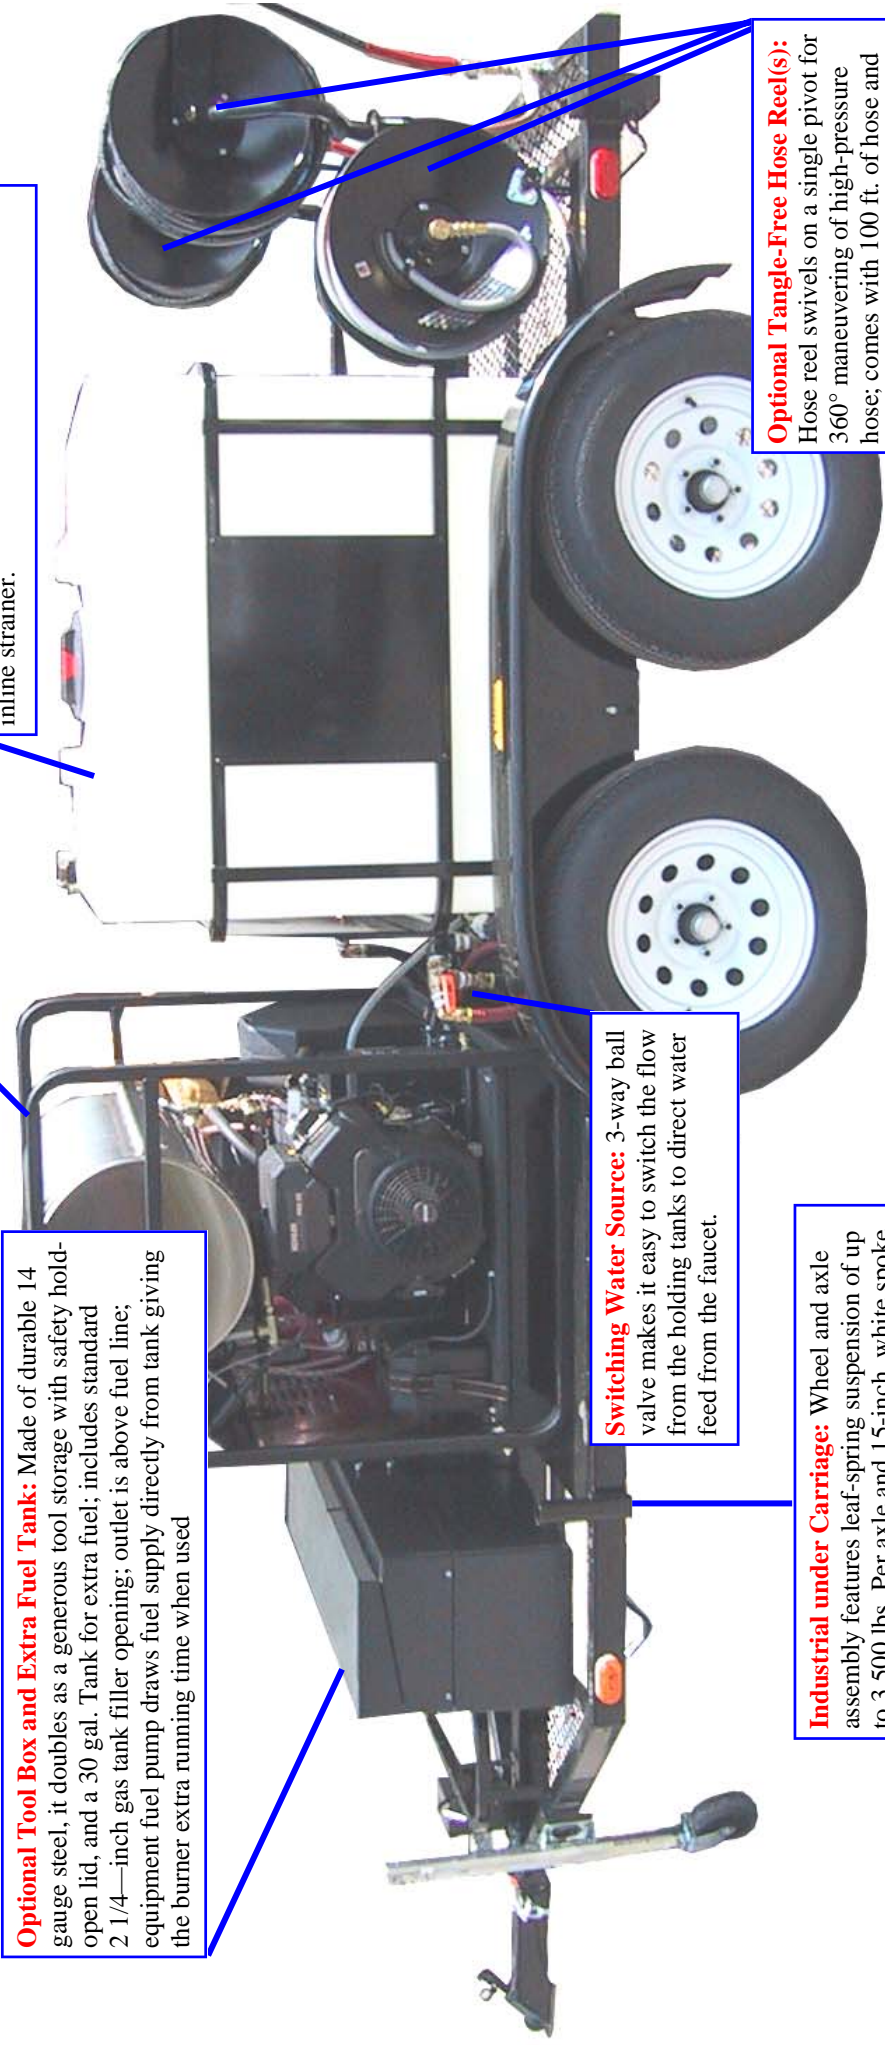

Optional Tool Box and Extra Fuel Tank: Made of durable 14 gauge steel, it doubles as a generous tool storage with safety hold-open lid, and a 30 gal. Tank for extra fuel; includes standard 2 1/4-inch gas tank filler opening; outlet is above fuel line; equipment fuel pump draws fuel supply directly from tank giving the burner extra running time when used

High-Density Polyethylene Water Tank: 330-gallon polyethylene tank comes standard with the trailer and features a access port plus a 50-mesh inline strainer.

Switching Water Source: 3-way ball valve makes it easy to switch the flow from the holding tanks to direct water feed from the faucet.

Industrial under Carriage: Wheel and axle assembly features leaf-spring suspension of up to 3,500 lbs. Per axle and 15-inch, white spoke wheels.

Optional Tangle-Free Hose Reel(s): Hose reel swivels on a single pivot for 360° maneuvering of high-pressure hose; comes with 100 ft. of hose and quick connects to chassis.

TRAILER OPTIONS:

Electric Breakaway Brake Kit:

Provides added protection against trailer disconnect during transit; includes sealed 12V battery.

Hose Reels:

Single-pivot reels keep both garden and high-pressure hose from tangling as well as out of the way from being run over or damaged.

Fuel Tank and Tool Box:

Includes extra 30 or 50 gal. Fuel tank plus a durable, easy-to-access tool box at the front of the trailer.

Skid Cover:

Provides weather protection for skid-mounted high-pressure washers.

TRAILER SPECS

LOAD CAPACITY	6000 lbs.
WATER TANK	330 gallon high density polyethylene
AXLE(S)	Tandem axles, 3500 lbs. Per axle
WHEELS	14" white spoke wheels, ST205/75R14C Tires

INDUSTRIAL CLEANING DETERGENTS

INTERCEPT™
Is a special formulation that makes oily and greasy soils completely and permanently mix with water.

SILVER MEDAL™
Cuts caked on truck wheel grease, cleans restaurant hoods and ducts, is a great brushless painted commercial truck and building wash.

PHOTO FINISH™
is a low alkaline, clear liquid detergent that gently loosens, lifts and suspends soils off of fine vehicle finishes.

POWER PLAY™
Is a high alkaline traditional steam cleaning detergent. Use on filthy soils and the heaviest grime.

TACKLE™
Cuts through heavy caked-on grease found on motors and heavy equipment.

All ETS Cleaning Detergents can be customized to suite your cleaning needs with detergent additives!
